Flourishing at Four:
Witness Your Child
Blooming with
Vital Skills at QMIS

"**Growth**" is, Google says 'an increase in size or shape'. Well, that might be the most disappointing definition.

But we, at Queen Mira believe growth is a reflection of beauty in one's self. At times over-ambitious parents underestimate a child's potential when it does not look the way they expect! We do not hiss at them 'to grow', but pat them saying "You are growing". Because we do not believe in marking them on graph charts but in giving them the stage they need to shine.

As we welcome tiny tots with sparkling eyes this Vijayadashami, we are launching more new initiatives and opportunities to help the kids master their milestones.

This parent's handbook will be a reassuring handshake to all anxious parents worried about their child's growth graph.

Fine Motor Skills

What does it mean?

Can I hold spoon/pencil, build blocks, make objects with playdough/clay, draw circles/crosses?

How does QMIS help achieve this milestone?

Our school's daily Theme time, Circle time, and Arts & Craft sessions helped me to eat by myself, draw & color without any help, and cut & paste with my teacher's help.

Gross Motor Skills

What does it mean?

Can I run, jump, climb stairs, hopscotch, throw, stand on one foot?

How does QMIS help achieve this milestone?

Fun in the Kids' Gym, our daily B-Fit sessions, and outdoor activities that our teacher helps us with, are my favorites always! We also learn Western dance in our school's beautiful studio.

Cognitive Skills

What does it mean?

Can I remember stories, count balloons & stars, imagine & play, follow whatever my teacher says, understand stories, and respond without confusion?

How does QMIS help achieve this milestone?

I look forward to our daily Storytime and Reading Time. The X Seed lessons and the i-Math classes are very interesting & exciting. Now I can count well, tell the time, and also make my imaginary play world.

Language & Comprehension

What does it mean?

Can I tell a story, enjoy role play,
chat with my classmates, remember new words,
and tell if I am happy/sad?

How does QMIS help achieve this milestone?

You know, we learn a new language in our
school. Every day I look forward to the Show &
Tell and Story Reading sessions and, when they
switch on the digital boards

Social & Emotional Skills

What does it mean?

Do I share my things, use the three golden words (sorry, thank you, & please), and work in groups?

How does QMIS help achieve this milestone?

Educational/Adventure trips are the most exciting days when we play & explore together. The Montessori techniques & tools give hands-on activities to engage our interests. When I participate in group social activities, I understand the world in a new light

At Queen Mira, we strongly believe that **"beyond books is where real learning happens"**. And that is why our after-school activities and Kids' Gym are a favorite among our students. In addition to opening varied avenues for kids to pursue their areas of interest, we also provide several opportunities & recognitions to build confident personalities.

As we welcome another new batch of tiny tots this Vijayadashami, we wish them more power in breaking the glass ceiling of their limits and soar beyond the impossibilities!
